Front Entranceway Improvements

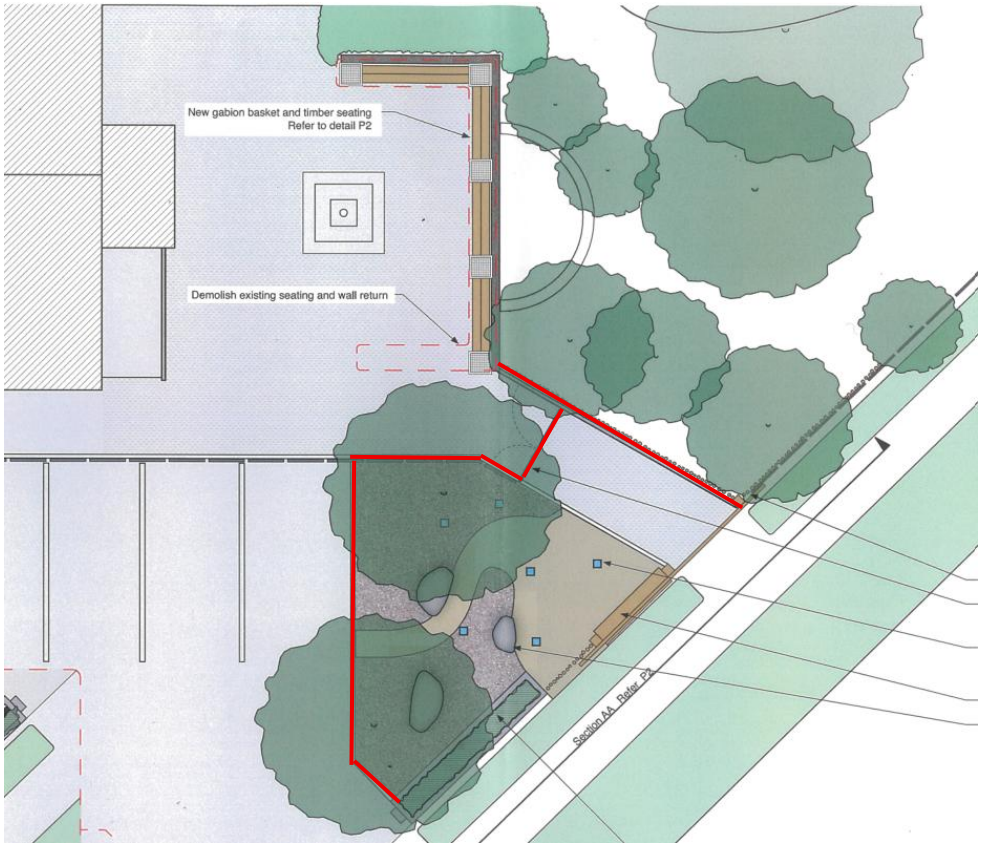

After 2 years of waiting, we finally start work on our Front Entranceway improvement.

This project will be started on Saturday 21st November and the work will be completed over the next 2 or 3 weekends.

The plan involves opening up our entranceway and creating a Waharoa at the street and moving our front gate back to where the concrete wall currently starts. We will be removing the concrete wall by the flagpole and digging up the tar seal to have this area concreted and new seating installed. We will be removing the security fence on the left-hand side of the entrance, by the garden and placing it at the back of this garden area, to stop anyone from entering the car park through this garden area.
Our goal is to create an open, welcoming and refreshed area at the front of the school, but which still provides the safety and security we need to keep our tamariki safe.

A waharoa is a traditional carved Māori gateway or entranceway that marks the boundary and welcomes visitors into a sacred space such as a marae, reserve, significant cultural site or school.

The red lines indicate the position of the security fences and new gateway.

While the entranceway is being upgraded we will be asking all tamariki, parents, caregivers, whānau, aiga and visitors to our school to use the gate in the school car park when coming in to school from Churton Crescent. At the start and end of the school day we will close off our car park entrance as usual and also place cones in the car park to direct tamariki safely to this gate. The front door of the of the office will be out of use but the side door will be kept unlocked if you need to come to the office.

A message from our Board of Trustees

Kia ora koutou e te Taitā Central Whānau,

I'm a parent representative on our school board of trustees. Myself and 5 other parents represent you all and guide how the school supports our ākonga.

We aim to create a school environment that supports all our ākonga to learn and mature into competent, kind, thoughtful people. So far, I like to think we're doing a pretty good job - this is intended to be a compliment to your children, rather than to the board!

Our school staff, especially our teachers and our teacher aides, are HUGELY influential to the learning outcomes of our students. Feeling safe, confident to ask for help, and capable of doing the things with the trust of trusted adults plays a big part in creating a learning environment where a diverse range of learning abilities and levels can thrive.

Ngā mihi nui Whaea Shell, to you and your staff.
Thank you for a great year so far, and here is to many more.

Kia kaha,
Katherine

Walter Nash Park - Play Days in the Park

Kia ora koutou

Hope this finds everyone in good shape and enjoying end of year celebrations.

I'm flagging an early close to Wednesday playdays at the park this year due to many of the crew being away and lots of end of year festivities on the calendar.

I'll still be around doing mahi in the neighbourhood and will catch up with our regulars at the park in the next few weeks, so don't hesitate to ring if you need anything.
Even though the weather hasn't been great recently, the warmth of summer is kicking in and it's great to see people utilising extra daylight hours and nightlights down at the park playing basketball and volleyball. Paku and I did a stroll around the courts last evening on our way home from an event and even with the gentle rain and no games on, it was a beautiful, peaceful walk.

This isn't the last post for the year but I wanted to touch base to give folks notice about playdays.

Catch up soon.
Whaea Sue

KEYpoints flyers provide practical takeaways and strategies to support conversations with your child or adolescent about the topic you are viewing.

Each topic offers a KEYpoints flyer which is located at the bottom of a Special Report under Additional Resources, or in the right-hand column of an Edition under Additional Assets.

You can download a copy of the KEYpoints flyer in your preferred language using the built-in translation tools located in the top left-hand corner of the webpage.
